

Thank you for choosing to have surgery with All Women

**Quotes** - prior to surgery we will provide you with a quote for the surgical fee and anaesthetist. There is a hospital fee separate to this– we request this from Kaweka or Royston hospital and it will generally take around 5 days. If you require this more urgently please let us know

If you are using health insurance your insurance company will require both quotes in order to do pre-approval

**Surgical consent** - you will have most likely signed this at your appointment. Sometimes there can be details to consider and it may require a follow up appointment for the consent to be discussed and signed closer to surgery. We will always discuss the procedure and any concerns with you on the day of surgery.

**Anaesthetics** – Depending on the type of procedure you are having done, you may need to see the anaesthetist in person or they may do a phone consultation with you. They will let you know if any blood tests are needed to be done before the day of surgery.

**Pre op forms** - please complete your pre op questionnaire, there is an option to do this online or in paper form

**Billing** - You will receive 3 separate invoices:

1. All Women surgical fee (which we send via email a few days after surgery)
2. Anaesthetic fee
3. Royston hospital

If you are using insurance you will need to forward these to your insurance company and generally they prefer to receive all three together. (even with pre-approval you will still need to send these in )

If you have an excess to pay, please inform your insurance company who you are paying the excess directly to e.g. All Women or Royston Hospital.

**Discharge from Hospital and follow up** - After your surgery we will see you in the Day Surgery Unit or ward to discuss the operation. We will discuss when you need to come back to clinic for a post-operative review and book your follow up appointment. If you need to change this, please email us

If you need any additional documentation that we have not provided for your upcoming surgery or any further questions please email us – [enquiries@allwomen.co.nz](mailto:enquiries@allwomen.co.nz)
